This is by no means meant to be a list of everything that you must take, simply a list with common items that you may want to pack. Of course, there may also be items that aren't on the list that you might need so don't rely solely on the list and double check!

Some Suggestions:

- - In your carry on, pack a change of clothes or two, a bathing suit, flip flops, a set of PJs in case of a luggage delay (or whatever you feel are your necessities for a day or two, remember no liquids though.)
- - Divide and conquer! Talk to your roommates - you may only need one tube of toothpaste etc. instead of you each packing one!
- - Make a copy of your travel documents - just in case
