ShaliCure® SS

Water Based Curing and Sealing Compound For Concrete Surface

Description

ShaliCure® SS is a sprayable sodium silicate-based compound for curing and sealing concrete. **ShaliCure® SS** is used on all new concrete surfaces.

Characteristics

Physical Appearance	Milky white liquid	Theoretical Coverage	8
Specific Gravity	1.24 <u>+</u> 0.02	Fresh Concrete, m ² /L*	

^{*} Depending upon surface condition.

Application

· Curing and sealing over concrete.

Advantages

- Seals, hardens and cures simultaneously.
- Water based. Green products.
- Resists penetration of oil and chemicals and salt effects.
- Can be tiled over.
- Facilitates direct application of subsequent treatment like waterproofing, painting and anticarbonation coating.

Application Methodology

Surface Preparation

Concrete surface must be clean and free of standing water. Remove any sealer or other
material that may prevent absorption of the ShaliCure® SS.

Material Preparation

• Stir **ShaliCure**® **SS** by a slow speed mixture (approx. 400 rpm) fitted with a suitable mixing paddle to ensure a homogenous mix.

Application of Material

Apply ShaliCure® SS to a concrete surface in a continuous film. Best results will be achieved with a hand or power sprayer although a soft bristle broom or squeegee. Brush may also be used. Brush out all sagged material immediately. Concrete abrasion resistance increases with additional coats of ShaliCure® SS.

Precautions

Mixing water is totally prohibited.

Cleaning & Maintenance

• Clean brushes, tools, equipment and flush sprayer with potable water immediately after use.

Limitations

- Protect ShaliCure® SS from freezing. In the event of freezing, , stir or agitate before using.
- Protect metal, glass, wood, paint or brick from contact with **ShaliCure® SS**. If accidentally misapplied, wash surface with potable water immediately.
- If excess **ShaliCure**[®] **SS** is left on the concrete surface, a white residue may form.

Health & Safety

- Avoid contact with skin / eyes and avoid swallowing.
- Ensure adequate ventilation and avoid inhalation of vapour.
- Wear suitable protective clothing, gloves and eye protection.
- In case of skin contact, rinse with plenty of clean water, then cleanse with soap and water. Do not use solvent to clean the contacted area.
- In case of eye contact, wash with plenty of clean water and seek medical advice.
- If swallowed, seek medical attention immediately. Do not induce vomiting.

Packing

Available in 200 L drum.

Storage

Store in a cool dry place under shed away from heat.

Shelf Life

6 months in original unopened sealed condition.

Product Range

■ Waterproofing and Insulation ■ Road Surfacing
■ Sealants and Additives ■ Pipeline Coating
■ Protective / Anti-Corrosive Coating ■ Epoxy Flooring
■ Grouts / Admixtures ■ RestoFix- Repair / Rehabilitation

■ Other Construction Chemicals
