

# Life's Trading Den's Trading Room 2 FAQ | updated 14<sup>th</sup> Aug

2023

Cluster topics describe more bondage in the bloodline than you would like to consider relivent. Here we step into the hidden spirit-world governence of the soul, or the systems of the world that knowingly breaches the soul, but many deny nor consider important to life struggles. We will say at some level managment systems are unknowingly applying programming systems to the human soul due to their lack of spiritual wisdom.

This applied to Karyn when she worked for an International Retail Chain & their inhouse training programme. {More on that inside our event} That lead to an interest in self development. These can also be found within educational, training institutions & University systems as well.

The topics we address today are key triggers or targets or things that govern our every day life. Completley hidden in plain sight. Once you know what you are being veiled or coerced into you will see a greater decreas in patterns & cycles repeating across the bloodline, because of your wisdom in decision making of what you are engaging in spiritual speaking.

Many topics can seem to be completley seamless by nature, because they are introduced into society through the passing of laws. Or through the people that mandate the system, that gives way to

interpretation from inside the realms before it is past into physical law. *{Trading Room 6 we go deep into Councils & Boardrooms in the spirit-world}* .

This simply means how people in positions of decision making manipulate the systems for personal gain, many based on their ideology, religion or occult practices. Know more about those that we vote into power or manage us than they know about you. Have you considered interviewing a company before they interview you for a position! *{Remember the soul never dies & the 2<sup>nd</sup> heaven rules earth through its human agents}*. Its like shadow governance or co-governance, but with a hidden twist of tracking bloodlines across generations..

Never misinterpret what we teach, as many do not understand why they themselves have patterns & cycles. *{Levels of SRA in the workplace & education etc}* Meaning boss's or leadership, people that are difficult to get along with wont understand why they are mean to a specific person. For them they are kind but for the recipient not the case. We teach a different level of human resources and its a very different road map that gets exposed as we cover the 7-Trading Rooms & other extened material.

We understand systems {unseen} of our world have have been in place for a long time. We also understand what it takes to move these “Mountains” out of the way *{spiritual speaking}* for the good of all.

Many of our RLS will impact you to the core of your being! Here we share to **x**pose, not to convince you but to demonstrate to you what has happened to others and will continue to happen if members of bloodlines do not pay attention to the supernatural parts of their trichotomy.

Humanity has been born into a system & that system is veiled. These systems host multiple agendas across SRA groups for one purpose! and that purpose is to obtain & retain the human soul into captivity {false over-ruling governance} not just on earth but all the way into eternity, for eternities upon eternities! For the soul never dies & the spirit of your trichotomy is up for sale! *{RLS#215 national archives inside Trading Room 6, you will find logic why patterns happen & are hard to break, they are veiled inside layers of industry & governance deception hidden within the matix of the industrial complex.}*

Inside this event we will present a selection of out-sourced teaching, their findings & give examples that offer a wide birth of information. Everything we have presented in Trading Room 1; event 2 will form new foundation for you to stand on in workshop 3. In Trading Room 2, you are learning about content that has dynamic layers of RLS to support with understanding that cloning is part of dementia. With other soul territory labels way bigger than we can find words to express.

To give you an idea when we go into Trading Room 4 you will find Cluster #23 a topic that is based around Programming or what we call

& many other therapist's call Patterns & Cycles. This *Trading Room* is all about sequencing, be it money, time, health, relationships, opportunities, Poverty, Wealth, business, inventions, de-railments & more. In *Trading Room 3* we walk you through the Trading Rooms of Soul Tapestry, here you are prepping for some very contested topics, or topics that you may even deny as reality or even real! You may even think some are real but dont effect you, theirfore they dont matter to you.

Please be assured our conversations hold truth delivered through meaningful evidence from a variety of RLS, that do exist and learning with out judgment may unveil a hidden pattern, cycle or situations inside your own DNA bloodline that is present or emergin in society right now. This will impact future generations through your trade agreements that you are programmed to accept the unacceptable!

As you work through each of the *7-Trading Rooms* you will gather deeper knowing inside your trichotomy! Its important to us that you be more than sensative to this content at this level because of the revelation moments that came out of this deep bondage. We have a small amount of Coach's Revelation already listed from previous events. Our Coach's have worked from their own life situations through this content, they understand the landscape you are facing very well & they too had to learn new terminology or languages between world's from our glossary.

Some coach's found that certain family members have been programmed & now doing the untying of the bondages exposed through the illness & through this process, they are finding the hidden satanic heritage remotely known but, mostly unknown. *{Notice the word remotely.}* Many unknowingly some knowingly have been installed by past generational people who held certain belief systems hidden inside their religious choices in ideologies. Some topic were so hidden inside the soul of that person that this suffering was incomprhensible to rationalise into the physical.

Here you are going to learn that soul trauma is chained through the trichotomy, potentially by the 15-aspects we demonstrated & is refered to in Glossary of Trading Room 1. It is these aspects that we focus on in this event, to help you learn the way forward in helping those in your own bloodlines & across those in your area of influence. Across communities & nations helping people to step into freedom.

Two different family stories will shock you of how family members were bound into a matrix that was beyond there actions and understanding. It was only through those that have been woven into such matters & their willingness to let us walk through the trauma to get an understanding to share with others. One being myself & the other that I mentioned above regarding an 85-year old women who followed astrology most of her life.

For this event we are pre warning you, when somethings feel not relative to you thats ok, just sit back and let those that are in the midst of unveiling of such matters have your support not your judgment. These are truly massive moments of generational breakthrough, offering a time of unique restoration.

Be a witness to historical events in peoples lives, walk with them not against them and all will be fine, all will be revealed and all will go well. Each topic is extremely real and very relevant to where we are in history right now. Your life may not look like you need today, but you can guarantee where our world is heading you will need to know this for future events.

Knowing the end game helps, but not everyone is ready to know that level of information. So be kind, be nice and we will cover your mind. Be brave, be beautiful to those in attendance and all will be well.

Welcome to Workshop 2

## Glossary | Trading Rooms Event #2 | Life's Trading Den's

published April 2023

**Oppression through beliefs** | We walk through the 3-Chair's again by addressing religion influences that we experienced through establishing conversation held inside many of our initial case profiling or how we established many Real Life Stories.

One would be RLS #9 the exorcism case which we dive into, inside the 8am-Rollercoaster session. This is a lengthy story so be awake! This sets the foundations to our experience inside some religious environment, where people have handlers in the spirit-world, so hold that understanding as we open up the airwaves for some myth smashing content & demonstrations.

**Is this relevant** | Here we say understanding the religious aspect of others & industry is key to breakthrough, a question that comes up a lot! Do you consider Yoga as a religion? Or is it how the symbols through the posture & poses made, that can be used as a physical anchor into the deity & rulers of the unseen realms?

**Is this relevant** | Are banking & money systems & head controllers are they of high level satanic religion that rolls out Akashic Records & ledgers across past generations trades therefore BLOCKING by intent, future generations?

**Is this relevant** | Have you considered that people who head up education systems have their own religion but never openly demonstrate what that looks like in truth. And do these actions hold eternity means & consequences that many do not understand because this style of thinking is never considered relevant?

**Is this relevant** | Early deaths & accidents are they preventable? If yes, why are they called early deaths & accidents? Why are they accepted?

**Is this relevant** | what does Idolatry look like & is it in your life?

**Revealing levels & dimensions of what religions** | look like in the spirit-world are critical to understand when dealing with many bloodline bondages woven into religious situations due to the nature of the “BEAST”. This is why we need to cover some RLS around religion, because of what the 3-Chair’s results delivers.

**Altars** | I remember when one of the first altar topics came up and I named it “blanket Stich” It was literally a wollen blanket from the 1950 with the needle stitching around the edge. You may ask so what does that have to do with religion.

Well you could start with orphanages & sex trafficking origin or networks! You could also add in topics like incest, woven into the bloodline from previous generation, knowingly or unknowingly. Again you could say, so what, & we would say, ledgers & records bind life patterns & cycle. In your generation, incest may not be the issue, it may be rape & porn addictions.

Religious realms hold a massive veil over families & its those veils we expose & heal, by an understanding that you will be brought into through workshop conversations. Building & confirming new resources from one event to the next, with each of our 5-levels of workshops, drawing both out un-wanted traits while teaching you through meaningful evidence topics that are dismissed as irrelevant to humanity.

Here I am trying to express to you how detailed & abstract this work can be. To widen the lens, symbols play a big role in this work, you will start to formulate a glossary for your self of things that will now scream at you before you engage. Not fear but faith by knowing!

*{Spirits linked to any human are the true perpetrators & they love to keep trophies}* My ancestors had placed me on a religious altar. Know that most will in “parts” this open doorway unknowingly.

By experience & RLS we address from the spirit or the unseen realms how religion casts its own witchcraft spell over a person who walks in a “Faith Relationship”. Here we expose the intent of a religious spirit walking or working inside a person or people group. We address this topic because many familiar spirits are assigned to bloodlines across generations. Meaning the spirit-world knows a bloodline better than the many in the bloodline.

**Religious Spirits Running People** | I have been accosted by religious people inside the church & also inside the New Age movement in many different dimensions of practitioners. Receiving in many cases vicious tongue lashings that actually binds the person spouting out attacks through offense, more than the receiving end. These people generally have no idea they are being controlled & that is the truth. To learn who is behind the religious spirit is a trail of assessments of what we share and by workshop 5 you will be able to make your mind up yourself. Religious spirit is not a stand-alone but a group of entities, that get established through idolatry.

You can take this topic & start to understand Sacred Family Mountains & Altars; here we will demonstrate why you should never never judge, & yes thats a hard one in the moment, but again never judge because once you learn what judgment is like in the spirit-world you will never have road rage again & other outburst's again ! *[Reference Justification Mountain}* Everything possible will be applied through the hell's court of law, meaning Akashic Records are opened & your Books of Rememberance get closed & why is this important to breakthrough?

**You will never judge another!** | Does that mean I'm without Judgment, nope but I am more than conscious of the impact it will make on my future & other generations, I don't play with my own self appointed gavel!

Behind religion is a deeply embedded old & I mean very old DNA witchcraft groups, that manipulate people *{human agents}* through the unseen aspects of open gateways & doorways. Know thy enemy! over life & know your power to erase that enemy; is a powerful tool!

**Again books ledgers & records** | So, being of a person who has dealt with religious attacks, why do I go to church? & Why do I present this work in our private events? The why, is because religion will claim more territory in this world in the next decade than it has ever claimed in the history of mankind.

If people do not see what is right in front of them in our world today, then whats ahead will not give time or space for the depth that these conversations need to take place at each event. If you don't start to

build a base line of spiritual warfare then the reality of your eternity will be filled with more a suffering than I want to even imagine.

*{Reference the corsways, realms & dimenstions of hell}*

The key is to be relaxed, open to step into this understanding. No matter your current level we are grateful that you are ready to grow your spirit-man that you walk around in everyday. We know from our own experiences that you are going to be slammed in your trichotomy in many of our events. To which part we can't tell you, but to be frank we welcome those who do attend, because many of our demonstrations will shock you while also being extremely valuable to you & your bloodline.

**MCRA {Workshop #1 Glossary}** | We do more than just deliver into your consciousness, we break open & expose foolishness by breaking into higher levels of “wise” consciousness. Then we can go deeper to change the blind parts of concisousness. Dealing with the parts that have been sold to {MCRA} Media Corporate Ritual Abuse. Count yourself awakened to Gods Dimensions not “the universe” but God himself through relationship.

**Programming Links** | I thank the media for doing such a great job setting a new style of media foundation that came out in 2020. Why because you can see cloning front and center in each presenter. Programming at its apex, undeniable and you have all been party to it for the sole purpose of claiming more soul territory {mind,will,emotions} to ultimately embedding more coding.

One key is to not stop at what immediately effects your daily life but now look into how MCRA is managed internationally cross co-governence, across hidden government portfolios, hidden occult organisations, coporations & linked through satanic symbols. When you know this you can move & start to open up the media corporate ritual abuse from inside entertainment to education, to medical, science, to religions & more, *{occult practicies hidden in plain isight}* to international web of corporations, the UN-agendas, OWO Forums etc...

These all hold at different levels of witchcraft trades & are established upon satanic elite altars *{found inside the dimensions of other kingdoms.}* They hold auhtority because of ownership over your unknown DNA altars that are erected in the spiritual realms & kingdoms. Under co-governence & managed by past ancestors through bloodline bondage, across a variety of open “soul” doorways. Existing because of unknow or in some cases known un-fulfilled agreement, some through guilt being a contributor. *{RLS# 112}*

The matrix of ethnic bloodline groups are my {Karyn} personal experence of bondage across generations and are backed with RLS from other individuals. Please know this is not a witch hunt but more un-veiling the hidden witch hunt against bloodline markers in the spirit-world that have existed from ancient of times. *{Remeber the soul never dies and not all are in heaven}* Here we work through the Ministry of Reconciliation, but more in class around this topic.

To loop back on the why? All of this relates to a RLS shared. Remember when I talked about sex trafficking in this introduction. Here I will say in one case I was volunteering to assist with, when I saw an expensive bottles of RED WINE being sold for alot of money! by a company in a north east state of the USA. They only sold one bottle at a time.

Now how do you think that product relates to trafficking & satanic worshipping, programming, cloning, altars & genetics? And why did I see in the spiritual realms “red wine” & not white? What made this RED Wine so valuable? & only available for elite dinner parties & masquerade events? {You will learn how this links into Venetian Masks}

*{Again established through meaningful evidence.}*. Not all is what you think and not all is always hidden, but much is being exposed and so much more to come will be exposed}. [{RLS#120}](#)

These two topics will come up all over the place, to understand in one or two workshop is not possible. Because each bloodline's soul tapestries are held across the cosmos in realms. But its not until you are inside the dimenations of each specific realm that evidence of bondage can be more accuratly revealed.
