

## Life's Governance Trading Room 6 | FAQ updated 9<sup>th</sup> Dec 2024

At this stage you should have done a lot of your own research into the things that have meaning to you across each workshop content & conversations that have taken place. I hope that many of the books & authors I have shared with you have inspired you to learn and look more deeply into the spiritual aspects of your trichotomy. I welcome your questions at our Q&A sessions, as they will bring us all to an epic close!

By now you would have had access to our extended classroom resources. Please bring all your unanswered questions concerning this material, & results you would like to discuss, including RLS.

Satanic Ritual Abuse is a real issue across our society. Now you have what we call Spiritual-armor that will assist with breaking bondages, patterns & cycles & levels of spiritual warfare for past, present & the next generation. Your results will be worthy of any conversation.

Now! If you have pre read all the FAQ before attending any of our workshops, then my statements might make you feel uneasy! I get it, as I was once there! On the 20<sup>th</sup> Aug 2023, after church, I did take one of those very long and overdue Sunday afternoon naps! It was when I woke that I realised why I was not so good at resting or allowing peace to talk to my soul & body.

I recognised a pattern from my childhood, and was able to link to a family story. In this long overdue nap time, I identified a trauma that stopped me from resting! RLS#214. Something that my soul had hidden deep inside of me since early childhood. Parts; of my body were held-up in a historical event. This was shown to me as a DNA pattern & cycle, & now I had created a new level of dysfunction inside of my own children!

These types of stories & more I will share inside our event.

Reference to Dream RLS#219.

## **Addressing Trauma Deep & Newly Established inside the DNA | RLS#216**

This is a conversation that travels through each Trading Room Workshop. A revelation I had while thinking about covid & the willingness of people to accept segregation! RLS#26 memory popped into my thoughts!

Here is what I heard -

- You have been released from the “National Archives” RLS#216
- I thought what!! does that mean Holy Spirit.
- Then I said what does that look like Holy Spirit?

Reference : {F.B.C | Bloodline Family Justification Mountain & Altar}

*Never underestimate man's ability to justify himself, to keep family cycle & patterns alive! Even at the cost of the next generation! For there is WW3 dound inside - a fight to protect the “sanctity” of a family line or the lifting up of “cultural” identity ahead of the trinity!*

For me (Karyn) having a revelation of my family lines; soul tapestries, cultural divided mingled inside of {U.G.L.Y} bloodlines became a personal breakthrough key for me. In essence those ancestors did good, bad & the ugly (U.G.L.Y :Unforgiveness, Geneology, Lies, You)!

This is why inside AYIN Group of services you will find our thesis records testimonies on how people groups in every generation fit into one of our 3-chair's perspectives or positions of thought!

### **Chair #1 Athiest – Agnostic | RLS#214**

Historical trauma from parents actions attached to addiction.

### **Chair #2 Energy Industry Practices & Practitioners | RLS#215**

This is about Master Guides SRA, Trauma of Soul Parts & ownership trades in the spirit-world.

### **Chair #3 Faith Relationship | Prophetic Utterance RLS#216 & RLS#217.**

Answers to your question through my revelation will be discussed in every workshop with the core being these two RLS inside Workshop 6.

After this event your spirit-man will re-position itself making your inner man more knowing & understanding as we head into Trading Room 7. . Inside our DIY Classroom resources each Trading Key will help with your personal trajectory around these 7-Mountains, industries, governance & trades. When this is revealed your spiritman will deeply acknowledge “ Through such profound moments! For it is not I that Lives! But HE that Lives in me!

**RLS #1,RLS#2, RLS#4,RLS#5, & RLS#76**

**Are case files that helped me to walk into the Church to ask about Jesus. Each impacted my experiences and all contributed to researching the founding topics.**

When I (Karyn) first came to Faith with Jesus back in 2018, I could not get my head around the conversations of calling strangers my brothers & sisters! Through revelation it did not take long for me to understand why I was blocked & what this new relationship brought once I had a shift in my spirit.

Understand you are here on earth for a reason, and knowing what that purpose is changes you from the inside, allowing for transformation to happen gradually throughout your life & lifestyle ahead.

## Glossary | Trading Rooms #6 | Life's Governance

**Agreements** | You may think this is only about jobs & careers, but you will find that this is also about simple booking appointment & no shows to appointment. Remember the Hells Court & the Akashic Records, that is what is at play here. RLS#213, Books of Rememberance held in Vatican Vault, covered in dust with an hour glass rotating patterns cycles.

This is about false governance. This case took 2-years to expose the truth. In 2022 one religion started to recall all its money and assets back into its vaults. The timeline around the loss of access to their books is tethered into the system that has called back its investments. For this person the vision was anchored into her physical life acting as a brickwall blocking lifestyle & career. You could even see her life was a living sacrifice.

**Councils & Board Rooms** | This will take on a completely different level of understanding. While this looks like governmental & business, there is much more behind the scenes.

For example when someone in government does the unthinkable, and it cost's lives, they are accountable in the spirit world for all those live's going into eternity. (more in expression inside our event).

Brief discription : To go deeper & think about medical (terminations), science (covid vax), pharmaceutical (intent behind purpose), go deeper again & think about each companies or industries board members or governing body! Even into schoolboard's & local councils!

*For both good & evil are called on judgment day. Based on the terminology "Trade" understanding what it mean spiritually when we signing an agreement to Govern a Nation, Region, City, Town, etc.*

Our 8am-Rollercoaster Q&A time helps with these types of topics because they have so many moving parts. We take segments of information to build

towards deeper understanding for people to steward life through unveiling spiritual consequences anchored in the flesh-trades. Understanding Trades; Agreement; Unfulfilled Agreements, Trading Rooms & Trading Keys in detail will give you a wonderful understanding of how to change mismanagement of the wrong doings.

**Mountains in the Spirit World** | In the bible it say”Tell that mountain to move” and it will! When I first learnt about this topic, it made no sense to me at all! However its wonderful moment when you see things that once shadowed you or your bloodline, to suddenly move! And they or it moves without any interaction or conflict with people.

**Over-reaching in Governance** | I would call this double or tripple dipping. Some people do & some don”t. Its time for this to be addressed! Done in humility, please understand this topic does not always come up at our events, when it does you will be taught on this topic.

**GLSA** | Global Luciferian Satanic Abuse, found in governance, boardrooms & other closed door corporations, sitting on top of their false Mountains of Manipulation. Every human being has the capacity to remove these systems of abuse, control & manipulation from earth. The key is unity& understanding. This does not mean all money & systems are bad. It is more about the means & intent of the persons free will on how they manipulte their financial influence., domestically & globally.

Many have sold out to evil agendas through satanic ideology, but what a journey they will have , by not receiving Christ Jesus. Getting the strongman (devil) off their genetics for future generations is on another level I (Karyn) HAVE PERSONALY EXPERIENCED. Exodus 14:14 is my go to.

**Relationship Power & Authority** | It is through understanding your power & authority, that makes spiritual-warfare a tool. No matter your mission & strength in your life's calling, it's when you partner with heaven's Angelic Host in a way that the 1st & 2nd Chair cant, in that moment it's you connecting the missing dots to the puzzle of life.

By experience, GLSA false power & authority is no match for what our events introduces you to. Because they deny Christ Jesus as the King of Kings & Lord of Lords & it is through the series of our 7-workshops we demonstrate & share HIS inheritance for, that remains on the shelf! Free Will gives Him the opportunity to wait for your response! Inside each event we demonstrate realms & dimensions of eternity with & without Christ Jesus.

Here in our workshop, not only do we demonstrate Jesus we also make room for him to deliver you personally from any earthly bondage, whether known or unknown, seen or unseen, understood or not! Why, because his gifts are not for sale, & his eternity can't be brought! It is all about free will & choice through a relationship, with Jesus Christ. As your experience each event inner healing & transformation workshop you quickly learn about "entering" through his bloodstained door & knowingly your life changes from the inside out.

For us, we ignite you into that relationship, a relationship that you will feel! This will be a feelings of peace & it may take a bit to understand, but you will receive a knowing inside of your spirit-man that breaks open hope with brand new profound possibilities!

**A Touchy Subject** | AI is one topic we speak about from the unseen perspective & is based on encountering rather than designing or

functionality. Purpose of man & machine has become allusive, yet it's in our face right now, slightly veiled to create intrigue!

Why? It's because I can enter into the realms any time to encounter that which is the true nature of man "Spirit, Soul (mind, will, emotions) Body or connect with my 1<sup>st</sup> Estate as a supernatural human being & my Trichotomy / Member in 3-parts.

Instead I would like you to think about A.I like this.

If you can't handle the content inside our workshops or anything within our 6-FAQ then for certain you won't want to be changing the origin of the nature that you & I have been made in. If you can't handle what we share then eternity is a long time to be living & fighting your earthly decisions of turning into half machine (a micro-chip changes your 1<sup>st</sup> estate) half man.

This topic for sure will bring in disability & prosthetic questions. I will settle some of this here. My own family members have had the benefit of these breakthroughs.

**Consulting Spirits** | Consulting angels that are in charge of the wrong "BEADS". This topic does not always come up at our events, when it does you will be taught on this topic of false beads, with Q&A being a strong part of the discussion. *(Java Beads; Buddha Beads, Catholic Beads)*

**FREE Workshop** | Trading Room 7 is focused on the 7-Mountains or spheres that run systems & industries. The Boardrooms of these systems sit in false power in the REALMS, welding their authority through human agents of bloodline darkness.

Know that your specific industry, no matter your vocation, is front & center to our final workshop. The purpose is to advance territories of what is good & perfect for mankind. A tool to change evil without engaging with the flesh! Battle strategies inside our "war-room" are worthy of learning!

I we close out the 7-workshops with this last event being our bridge between the world & ministry. Inside our closing workshop we focus on the position of “Free Will” it is choice’s made by humanity to walk away from their 1<sup>st</sup> Estate or return through experiencing a living relationship.

I can not stress this enough! How by giving away or up on your 1<sup>st</sup> Estate as a Supernatural Human (trichotomy) is unretrievable from inside eternity! When you THINK about eternity, it’s a long, long time for regrets! By meaningful evidence we demonstrate at various levels for all to understand how the eternal world is a gods-eat-dogs (*meaning that the value you & I are looked as from their territory*).

The spirit-cosmos-world is no playground for inexperienced disembodied-spirit (LHS = Lingering Human Spirits) Or human souls that made a choice to deny Christ while in their physical body.

By now you know I have spoken about many topics from LHS to Cloning Stations. I do hope that I have expressed, how I am completely serious about my 200,000 word thesis & what I have learnt firsthand.

For me this AI techno sales pitch, saying you can be your own god! is deceitful to the core. Do you think Kronos who ate his own children is ready and waiting to place you on your own throne, next to him & share his kingdom? Like I said before, to understand this more, trying to be your own ‘god’, then at least sit through our workshops before you sell-out to any “Chip” to buy & sell. For eternity is more than millions of years!

Or better are you ready to contend with Kronos & others that have lived for a long time! Are you ready for them to wield their ancient authority. Are you ready in your AI suit to contend with the ancient beings from the cannibal era of nations, that still walk the cosmos? For their interest in this is no more than to have an open invitation from anyone in any bloodline, that gives them legal right, through agreements or unfulfilled agreements.

Believe me when I say the realms are ready & waiting for man to sell-out their 1<sup>st</sup> Estate. Just reflect on what you have learn todate regarding how human dysfunction, sickness & dysease gains entry legally into the trichotomy! Many of these entities live off human blood, & their consumption of the flesh by man denying the trinity through transhumanisium has been their hidden agenda! In any mythology non of the gods or goddesses share, for It is the demi-gods & goddessess goal to consume Gods children!

Abstract as my points are, know that humans are one-micro-chip away from selling off their free will to the spirit-world system. For what? ‘so you can swipe your hand over as a “wand” and MAGICALLY your goods & services are paid for. Refrence {“Am I only human” podcast}.

To publicly speak of these things is one thing, but to physically encounter these things is a completly different level of awearness. If man cant handle what the supernatural world of Gods Church & His Gifts upon His Prophets, People & His Word, & choose to go to mediums for answers then their is going to be a seperation of intel.

That seperation is critical to those that have hidden agendas or are human agents. But for those like myself that has walked-out of Rescue Mediumship & now walks with Jesus Christ through Faith & Knowing Relationship, seated on a throne inside HIS Kingdom while living this life! Then from that perspective is it worthy of your time to serch out a matter and decern for yourself.

Throughout each workshop we have refered to many outsourced resources, to confirm our position. We are not asking you to believe in what we say, instead inside our content it is your free will to expierience as we share our physical expieirence through hundreds of testimonies & other reallife stories. It is up to you to decern our 200,000 words thesiss spread across three different levels of service.

Again please jhoin us at each workshop build your understanding, recieve inner wisdom by expieirencing Jesus Love, for HIS peace is available to all that call on HIM!
