In this event we are working through 7-Mountains of influences, with a greater emphasis of supernatural demonstration & terminology referencing. While this content may seem never ending, it will surprise you about the width & depth to the portrait & landscape levels, of hidden soul tapestry entanglements that will complete the picture that we have been exposing in each workshop.

Spiritually speaking these entanglements are a matrix of ill-intent, that has veiled our worlds understanding & growth across generations. Entanglements hold humanity at ransom, mostly through two different types of "beings!

One of these would be non human entities & the second type would be made up of human agents or descendants of "Evil Bloodline" & through them impact our daily existence & results. In essence they hold physical evil-authority to many things that operate in our modern world.

Reference : AYIN website contact page, you will see a scripture that can bring you up to date & into an awareness of the focus & foundation of this workshop.

In 2021 a word of knowledge is quoted on this page that may give you some deeper insight.

The keys in this event is to close many soul tapestry doorways that are or have been opened by 3 types of Trades (*Self, Others, DNA.*). During the process of exposing a deeper truth on the how these 7-Mountains entangle policies & procedures gain access to man is a discussion across hundreds of single word prompts. Very similar to what other workshop cluster groups have offered.

Here you will learn more about how this work helps the soul & the spirit in its unity with the flesh. Though knowing your 1st estate mandate & call on your life purpose. Meaning once you know how the 7-Mountainians & shadow governments, councils in the realms operate through supernatural family gates, altars & sit on your family throne blocking a bloodlines prosperity, many times from generation to generation.

Without undertaking a journey into this many will make their own way into life & out into eternity! What do those people look like? *(Example for the purpose of demonstration, this is not a statement at this point you have very little context to make a valid judgment)*

In this example - Take a moment to think about a person who has lost authority over a situation, Supernaturally speaking what has happened so that, that person has actually lost "PARTS" of their 1st Estate Authority, therefore they hold zero power.

Example : You could reflect on many situations; why mental illness is so big in families & communities! At this event it is the perfect environment for this level of conversations. You may ask about results; some will see instant breakthrough, some need more research or family conversations to bridge differences! Others will need deliverance of a different style. While our goal is to see the greater good in & by a collective approach in this last event for each purpose. Sometime we need to tackle issues on a one on one environment. In other words once you join our movement, you will have access to ongoing relationship as and when you need.

Description : For the mind & body to be in its 1st Estate we first need to evict the unseen from that person. Then the real person can show up in spirit & truth, RLS#76. This work is not rocket science, but it will require healthy, open & transparent people willing to contribute and engage in big conversations.

At our event we will talk through how generations of families have lost their "Authority" because, learning about their trichotomy "Parts" has been evicted from the systems that teach man.

This is what we mean about trichotomy parts.

Part #1 Spirit,

Part #2 Soul,

Part #3 Mind,

Part #4 Will,

Part #5 Emotions,

Part #6 Body.

There is a governance of these parts that hold the Power & Authority. This again we have worked through in our online classroom Trading Key #1 Divorving Baal. The reason illness still operates is that many just don't want to know! Playing the game chance does have a stopwatch attached to it, and man has lost or given away their rights to control that stopwatch!

The ones who overthrow or ride, use & abuse those rights are the ones walking within the 2nd Heaven going too & fro across the earth! We do discuss how man has been an ancient sacrifice target from the time of the gardens fall! While unseen realms hold power they do not have authority! But it's their way of claiming man's authority that we focus on & skill you up on!

For generation after generation human agents know how to work the systems out and keep people isolated from the truth about their 1st Estate. But more in the event, than what I can share here.

For our team all is traceable back to or through the 7-Mountains & each shadow-governance, from inside the boardrooms inside the realms & us voting in unknown human agents who behind closed doors work within the climate of the system. *That how the Zig-system operates (zig is my slang-description of human agents & bloodlines systems).*

This framework impacts "Things" across life & lifestyles, it changes things individually, by taking back bloodlines gates, thrones & positions of power by knowing 1st Estate authority & power.

The entities are supernaturally ruling & reigning over a family from the spirit-world, realms & dimensions, *they are bullies, they are "elite! In their entitlement & they are lethal if challenged outside of your jurisdiction.* This is why you need to be equipped spiritually to breakthrough their bullying controllers non-human & human agents. Not in the flesh but in the realms.

These demi-gods or spirit-world councils I have encountered numerous times. Meetings of elite past generations of evil-human-agents still go on! Meaning they are still legally staking their claim to & through the souls of men, through unknown generational bondage. These entities & human agents are vicious in their intent of ownership. As they mostly claim through ignorance of man's lack

od spiritual or trichotomy wisdom. By blocking teachings, derailing resources & overplay their hands on claiming authority & power inside a persons rights to their “1st Estate. The enemy loves to “claim” ownership of a soul or “Parts” of a persons soul, to rule a territory, in many case files evidence has been from conception. Again, more inside the event.

Inside Trading Room #7 we are focused on the dismantelling of these evil authorities that operate inside many globaly systems. The “7-Mountains” or 7 Spheres of influences is not our title it was pend by others. Our expression is by walking content out in the spirit watching these agenders illegally shape societies across the world to suit their small groups of bloodlines, while distroying the masses.

Co-governence with Human-Agents of Darkness or Hybrids is another word we do apply. Backed with our Forensic Evidence; non of what we share & talk about is without meaningful evidence. Know that these are a few keys of evil intent against humanity! And, yes there are physical people who obtain authority over mankind to coerse humanity into believing in their deception. I think you mind & heart already understand these people or hybrids do not “Display” their true intent in public.

A quick refrence to this statment would be to *go to Karyns Face Book page, read a brief example regards consiquences of M Sanger of Planned Parent Hood.*

Here is the list of the 7-Mountains that we focus on. You can also find many teachings on to give you a point of refrence. For us we share by evidence through case file expieience. Non of our content is by reading a book, its all by expieierencs from real life stories.

7 Mountains |

- Family Mountain,
- Relgion Mountain,
- Education Mountian,
- Business Mountain,
- Media Mountain,
- Arts & Entertainment Mountain,
- Goverment Mountain.

Our work delivers evidence out of the “Shaddow Governance” across each sphere/mountain. Our focus & approach is from the 4-tiers of the evil systems hidden inside each mountain, linked through gateways, CERN portal, into parallel universes. *(again more inside the event).*

Holy Spirit is the only way to extract the unseen agendas. It is through our work we have been researching each of the 7-Mountains, from corporate, governance to private. We have recorded many many case files, some are from victims of bondage, some are victims of SRA, some are victims of self-abuse, victims of depression, PRA, victims of poverty and thousands of other scenarios.

With many deeply embedded inside soul tapestry trauma from DNA historical abuse & cult wars build on false beliefs, some handed down across generations. With each mountain producing its own soul trauma, from abusive education experiences, to medical & careers! Our thesis has been building since 2015, it was in 2019 that key resources came into this work.

The global stage since 2020, has been exposing the true nature of the unseen world true nature to the 7-Mountain hidden agendas. Inside each of the 7-Mountains are systems. Each of these mountains hold a 4-tier systems, embedded deep inside like a rubics cube puzzle, *(one that I have entered into many times, knowingly & unknowingly).*

These systems hold a telephone bank that when I first witnessed blew my understanding out of the depth I held at that time! This information will unlock many social issues, from mental health, unbalanced wellbeing, sickness, diseases, finances, lifestyle blockages & more.

For me (Karyn) to build context around the complexity is for deep interaction at Workshop 7. That is why you need to have worked through each of our 6-workshop in preparation for this 7th event. Workshop 1-6 helps with the heavy lifting to get people to this last event's content & is a different next level of understanding.

You could say this event is dealing with Eden's “Elephant” in the Room! Something that is hidden in plain sight! Something that is stagnant, unspoken &

smells like a coverup! Something that breaks free the topic of S.I.T. or U.G.L.Y, something that must be hidden in plain sight, by their laws!

In closing this event is hosted by our company & is complimentary to those that have completed the first six workshops. T&C's that apply.

From our experience it only take one to reclaim back the Family Throne in any bloodline. If no one does the learning, investigation or takes no action, then a change to outcomes will remain on rinse & repeat cycles, leaving patterns across current & future generation set out to play like an invisible remote control..

*Special topic we will discuss at this event !
What is the difference between, rescue medium &
The Ministry of Reconciliation of "All Things".*

Inside workshop seven I will say many actions will come forth to deal with what is not understood. One of those things would be for you to learn about in detail how & when I meet a human-hybrid, (*a entity looking as a man but walks with evil & bears no soul*) no mind, will, emotions of his own!

Another way to express this entity/man would be to say his soul was traded at the Throne of Satan (*A place i have been & seen*) This hybrid-human, that I encountered in the physical I also had to contend with that very night in the spirit-world. But more of that inside this event (*7-Mountains, Restoration of All Things*)

A bit of a heads up; or Warning for you - Other topics we will discuss bridges & hells corseway, transportation & how many entities move around the cosmos in and out of our atmosphere, space ships & three-star generals of evil. Military content & cloning systems.

Closing Workshop Glossary | TR#7 is all about replanting new SEEDS! Into existing spheres of influences, from a supernatural position.

Disclaimer : Trichotomy Terminology & Soul Part Trauma / Trades are key to health & wellbeing breakthrough. Our resurch covers many public systems, teachings. Each case file/testimony have been real life encounters & it is our exposing of the hidden aspects in desission making that this Tradeing Room workshop delivers new resouces & props thinking!

We are not here to assault or accuse. Our work is to engage, demonstrate & build conversation, through establishing evidence as our key componant.

de-Throning A System : Systems dont always deliver the best outcomes for families, communities, regions & nations. Be it people, place, positions, even the the airwaves & the waterwaves are subject to trichotomy-discord.

Unveiling shaddow governence is a generational pattern & cycle game changer.

For there are hidden satanic-default-services embedded through governence symbology. That can be hyper-linking the unseen parts of the trichotomy, into terms & condtions that knowingly or unknowingly create “Trichotomy” consequences adding to trauma through desission making / by default are ignorant to the fact.

7 Mountains : Family, Religion, Education, Business, Media, Arts & Entertainment, Government.

Warning : Nations & culter are important to God; they offer identity inside tradtions, within human trade & commerce. From natural resouces, farming, innovation, across industries & more, here in the establishing of evidence corruption can be exposed, as corruption is not His way!

Exposing 7-Mountains Unseen Systems : Inside each of the spheres of influences or 7-Mountains you may think that some topics have nothing to do with you

personally. In TR#2 Cluster #14 were we dealt with personal mountains or DNA Mountains . Please be assured that here in this event is your supernatural “Votting Booth”. Over each event you now would have learnt & experienced the terminology of The Courtrooms of Heaven, & Hell. Holy Spirit will ignite conversations, reveal hidden agendas & change hearts of understandings.

Your Voice matters : By now the previous six workshop will have spoken volumes to you. If you have not completed the six workshop, it will mean you are not ready for this gigantic moment of Power & Authority. This time is a game changer! Here “YOU” are going to truly increase & realise the truth that is inside the “Fullness” of your trichotomies future potential.

From Karyn : As the founder of AYIN, Open Door Retreat, Decoding Life & Forensic Boardroom Consulting,

I pray that you have found our teams encouraging & helpful.

I pray that I get to meet you so together we can celebrate your victories big & small.

Why?

Because my personal walk has been incredible hard! I won't lie, but 100% worth the walk. Living at the bottom of the world, I will leave you with my personal understanding...

New Zealand leads the world into each new day! For the sunrises in Gisborne each day! The 1st in the world to see the sunrise.

We are the 1st to witness to a new day, it is our nation that is in need of, or a renewing of the awakening light of the World.

I pray that you are part of that New Rising Light & may it spread across all nations.

Global Supernatural Status : Many global systems have already started to be dismantled in the realms! This is not a quote but a statement. Based on Spiritual Warfare Case profiling I have personally encountered. By now you will have heard many of my personal encounters with Hells Court & learnt about different dis-embodied spirits, thrones, and more. A lot has been shared regarding realms & dimensions, demi-gods & goddesses. While there is megga more to be shared & to be learnt.

For me once you understand your enemy, you can walk in victory with the one that has taught me so much. To those that read this and judge without seeking understanding, I bless you on your walk, I bless that you give Jesus an opportunity to talk to you in a manner you will understand, before you enter into eternity.

Letting You In! : My heart has endured & encountered a lot, please do not be ignorant of this content. Even if you are not ready at least join us & listen, not to change your mind but to be informed.

For me; unity in community is achievable!

For me; I first need others that walk in their mantles to help me understand many things that I see.

For I only know in parts & your part may be a key to change generational dysfunction, in families, communities, regions, or nations.

I am not a lone-ranger nor do I walk with a title.

I am simply a human who has worked out the deeper parts of the trichotomy of man.

I have encountered non-human & transhumanism in the realms, these agendas originate not from humans, but are using humans who can't experience what God put into "Man's" original creation. So in composite humanity, some hybrids & clones do not walk with a soul! Thus their understanding will never be all-in-for-humanity!

Bloodline must remain human at all cost!

From a person who has walked the corridors of Hell, by sight & by experience eternity was not made for MAN!

Yet, many by Free Will & harden hearts, man sends himself into Hell's dominion.

Blessing & Peace of Christ Jesus
