

THE SOVEREIGN PEOPLE'S CHARTER

Truth and Common-sense to end tyranny and harm

*The Seven Requirements needed for a safe, sovereign, peaceful
and prosperous United Kingdom*

The Great Charter of 1215 (**Magna Carta**), protects in perpetuity all our nation's ancient and unalienable rights, laws and freedoms. However, in recent decades, the absolute supremacy of this Charter has come under unlawful and treasonous attack as never before by a powerful and corporate system of false governance – an outright attack on the very freedoms, security, health and happiness of all of us.

Our elected servants in Parliament – the political class – have effectively created a 'Government of Occupation'... that is a government which seeks only to serve the vested and corporate interests of the City of London rather than the interests of us, the Sovereign People of the United Kingdom.

The truth and the common-sense solutions needed to fully restore the protection of **The Great Charter** have now been uncovered. We, the Sovereign People of the United Kingdom, are now pledged to lawfully take back control from those who seek to govern us by use of deception, entrapment, tyranny and outright harm. This can only be achieved by the immediate implementation of the **Seven Requirements** of the **Sovereign People's Charter**. They are...

1. The Full Restoration of our ancient and proven Common Law Trial by Jury and Annulment by Jury Constitution that puts us, the people, firmly back in authority over our agenda-driven and self-serving politicians, judges, lawyers and bankers by lawfully removing from them their powers to punish and deceive.
2. The Creation of Prosperity for all by bringing back debt-free and interest-free Treasury money that's based on the wealth and labour of our nation – exactly as we did in 1914 with the enormously successful '*Bradbury Pound*'.
3. The Ending of abuse and harm of all children whilst protecting the Common Law rights of parents so as to strengthen the family unit.
4. The Assurance that we have the Armed Services needed to fully protect the sovereignty of our country from all those wishing us harm, whilst also guaranteeing the operational resources needed for effective and nationwide Community Policing to keep our streets safe.
5. The Exposure and Removal of the hidden and alien system of 'legalese' governance that controls our judges and court system whilst using outright fraud, deception and entrapment to unlawfully impoverish and constrain the ordinary people of our country.
6. The Call for a new and democratic Europe of Sovereign Countries to replace the planned European Union Superstate – a fresh European initiative that's free from the unelected and unaccountable European Commission and the privately-run, debt-creating European Central Bank. Such a Europe would work in harmony on strategic issues such as trade, transport and the environment.
7. The Guarantee that science is always used for the well-being and advancement of all and not for the profit and greed of the few. This includes the immediate termination of the extremely harmful and dangerous 5G roll-out, Fracking, Geo-engineering and Compulsory Vaccinations.

It's time to heal and unite our country with truth and common sense – please get involved and alert all your family, friends, and local community to this Charter and what's behind it. Thank you.
