

What's Happening at Hunt - June 2022

ESG CORNER ENVIRONMENT • SOCIAL • GOVERNANCE

At Hunt, we have long understood that diversity and financial performance are inextricably linked. We believe that employers outpace their competitors by respecting the unique needs, perspectives and potential of all their team members. As we recognize PRIDE month, we wanted to update you on what we are doing as a Company to advance our Diversity and Inclusion (D&I) efforts to ensure a safe, dynamic, and inclusive workplace. We have recently implemented a corporate-wide D&I Policy and Program to align definitions, outcomes, and approaches to improving D&I within all of Hunt Businesses. D&I training sessions have been held at the executive level, with employee-wide training programs planned in the near future. Our ESG Governance Process includes an external audit of these policies within each Hunt business and recommendations for improvement, which are discussed as part of quarterly board meetings. In addition, as a component of our annual ESG evaluation, we collect diversity data from Hunt businesses and affiliates.

We continue to work with our Consultant to build out Hunt's D&I strategy. Starting in July 2022, we will have a group of internal trainers following an in depth 'Train the Trainer' workshop and will schedule training for all employees throughout the year. In addition, training will become part of the new manager and new employee orientation curriculum going forward.
