TAM SACHS ROCKSTOOLS

Tam Sachs has been working with the most renowned upholsterer in Paris. After opening his own workshop he started to develop his rockstool concept.

Rockstools are unique pieces as the foam of each seat is hand sculpted. They are covered with high quality fabrics that add to the stone effect.

Each piece is signed and can be adjusted to any clients needs.
17 colors are available.

Tam Sachs's works are exclusive with Hestia Gallery in Dubai.
He had his first exhibition at Maison & Objets in Paris in 2024 decorated by Elizabeth Leriche.
