# PREPARATIONS WHEN MOVING INTERNATIONALLY

Prior to your move, we will arrange a survey at your home, where you will meet our consultants. It is important that you contact us 6-8 weeks before your move to receive assignment priority.

## ONE-ON-ONE CONVERSATIONS

A compatible living environment plays a key role in any successful relocation, and so we begin the home-finding process with a one-on-one conversation with the assignee, clarifying their needs and priorities.

We then begin a thorough market search and prepare for a guided presentation of carefully selected houses or apartments.

## HOME SEARCH

Finding a suitable home is one of the most important aspects of the relocation service.

We take care of the details.

## ARRIVAL AT A NEW LOCATION

**We stay in touch.**

**The following services are all arranged in advance of arrival:**

- school enrollment
- registration with the authorities
- meetings with bank representatives.

We maintain close contact with assignees from the very start of the relocation process, beginning with an introductory phone call and continuing with calls or e-mails.

# IT'S ALL ABOUT SERVICE

A photograph of two people, likely golfers, walking away from the camera on a grassy field at sunset. They are carrying golf bags. The person on the left is wearing a dark vest and a cap, while the person on the right is wearing a light-colored shirt and a wide-brimmed hat. The background is a soft-focus landscape of trees and a bright sky.

After arrival, assignees spend time one-on-one with our service-minded destination consultants, who offer wise suggestions and sound advice regarding anything that can help an assignee's quality of life. From sport & social clubs, to government programs and cultural training, we are your source for answers.

We advise about acquiring a local driver's license, choosing an insurance provider, using public transportation, maintaining good relationships with local landlords, and many other issues which can become complications when living abroad. Any other immediate needs that arise during the first weeks will be taken care of promptly to ensure a positive, organized assignme

## WE SUPPORT WITH CUSTOMISED SERVICES

Most relocation expenses are obvious, while others remain unforeseen. Each assignment location has a corresponding level of service required to ensure a successful transition. No two corporate mobility platforms are identical, and each present their own set of needs and expectations.

This is why we customize our relocation packages, specifically targeting those time-saving, cost-effective services which deliver desired results.
