Price:	€288,953	Boat Location:	Denia, Spain	Max Draft:	0 m 75 cm
Condition:	New	Cabins:	1		

Description

High-performance SUV for the water

Chase 35 has received a completely newly developed Mk2 hull and has been extended by a foot. The new construction provides higher efficiency and better stability. The change now also gives the possibility to use Twin 565 hp High performance engines from Mercury Racing.

15 years ago our typical customers drove luxury sedans, now it's very much changed towards more user friendly and sporty high-performance SUV's, like Range Rover and Porsche Cayenne. However, we couldn't find any equivalence when it comes to boats. You can buy a fast ocean-going RIB, with excellent rough-sea capacity, or you can buy the comfort and quality feeling of a high-quality Day Cruiser.

Unfortunately, most customers find the high-performance alternative too basic and minimalistic for multipurpose family use. And most Day Cruiser simply doesn't have the performance, rough sea capacity and sporty feeling some of these customers wants. Cormate wants to eliminate this dilemma by making a high-performance SUV for the water. A boat which combines the rough sea capacity, user-friendliness and speed from the best offshore RIB's, and the comfort and luxury feeling of the high-quality Day Cruisers.
