

Golden Valley for
agriculture consultancy

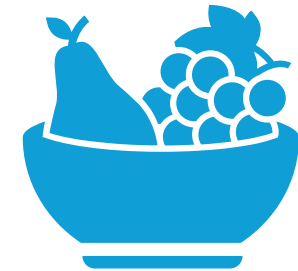

Why golden Valley

Golden Valley – A leading supplier of sun-dried vegetables.

Location: Luxor, Upper Egypt – maximizing natural sunlight and fertile soil.

Expertise: 3 years in producing sun-dried tomatoes, tomato powder, and other vegetables.

Products & Strengths

Sun-Dried Tomatoes

- Naturally dried under Luxor's intense sunlight, no fuel usage.
- High flavor concentration, consistent quality.

Dried Tomato Powder

- Low moisture (<6% for powder).
- Various specifications (with salt, sulfates, or additive-free).

Other Sun-Dried Vegetables

- Flexible production lines to handle a variety of crops.
- Technical ability to meet custom specifications.

Quality & Compliance

- **Global Standards:**
- Current stock meets **Turkish, Brazilian, Russian,** and **EU** requirements.
- **Packaging & Labeling:**
- Vacuum-sealed, bulk, and custom packaging to ensure product freshness.
- **Certifications & Tests:**
- **Non-GMO**, organic upon request.
- Third-party lab tests before shipment.

Current Availability & Logistics

- **Stock:**
- Sun-dried tomatoes available immediately for Turkish/Brazilian markets.
- **20 tons** specifically compliant with Russian/EU standards.
- **Production Capacity:**
- Scalable to meet large orders.
- Ability to start new production runs **after contract signing** with **50% down payment**.
- **Minimum Order:**
- **10 metric tons** for new contracts.

Partnership Opportunities

Why Golden Valley?

Sustainable drying process (no fuel, lower carbon footprint).

Strong ties to **local farmers** and communities.

Flexible to adapt to **technical requirements** of global buyers.

Next Steps:

Discuss specific product needs and forecast volumes.

Customize packaging, labeling, and shipping solutions.

Finalize contract terms for a successful, long-term partnership.

Golden Valley & Community Responsibility

- **Partnerships with Local Farmers:** Providing training, fair pricing, and reliable market access, promoting sustainable livelihoods.
- **Collaboration with Egyptian Association for Sustainable Development:**
 - Joint programs on sustainable agriculture, water conservation, and soil health.
 - Community-led initiatives aiming to reduce environmental impact and promote social well-being.
- **Empowering Smallholder Growers:** We prioritize local labor, creating jobs in under-served rural areas around Luxor.
