DIESEL & ELECTRIC FORKLIFT SERVICE

Forklifts will cost you more if you don't maintain them well and we can offer cost effective agency level quality maintenance services for all brands. We offer repair service of all capacity forklifts lifts from 1 to 60 ton for maintenance, repair & overhauling works relating to engine, transmission, electrical motors, brakes, hydraulic system, mast, carriage, electrical system etc..

TRACTION BATTERY MAINTENANCE

battery is the main cause of damages in electrical unit. Proper routine maintenance of Traction battery keeps it healthy & serviceable for longer period. This will help you to get more out put and reduce unexpected breakdowns of the unit.

REACH TRUCK SERVICE

Reach Trucks are essential for warehouse operations and its regular availability is critical for your business needs. We help you to maintain them in cost effective way with regular maintenance & fixing unexpected breakdowns

SPARE PARTS FOR ALL BRAND FORKLIFTS

We can offer you spare parts for all brands of forklifts from alternative sources with OEM matching quality & very attractive rates.

Service Call Execution Process

1. You need to share your Equipment Details & Location
2. Inspection charges of AED 250/unit will be applicable for onsite checking and submitting repair quote. For awarded works Inspection charges will be refunded.
3. Inspection will be done on same day/ next day subject to service team availability & site location.
4. Initial Quotation submitted will not be final and it is subject to additional repair needs identified during initial trial test after repairs.
5. Payment terms to start the repair work will be 50% advance and balance before work completion. Credit facility will be provided only to regular clients & AMC clients subject to management approval.
6. Upon receiving LPO & advance payment, we will start the work
7. Work completion schedule is subject to change due to parts sourcing delay / additional works identified during trial run.
8. Any re-Programming works/ items not possible to arrange from alternate sources needs OEM support & it will cost as per their tariff.
9. For major works units to be brought to our facility.
10. For any overhauling works we offer 200 hrs /1 month warranty. For other repair works it will be for 50 hrs /1 week warranty. Warranty only for workmanship & parts used and it will not be applicable for issues results from other systems of the unit.

Our Service Objective:

We are offering services to all brand forklifts as an alternative option to OEM dealer to reduce your Repair & Maintenance expenses of your fleet. So, we will not be offering you any expensive repair quotes. We identify the expensive parts replacement requirements through step-by-step repair process. Clients are requested to co-operate with us accordingly.

We also offer you Annual Maintenance Contracts [AMC] to manage your fleet's periodic maintenance & breakdown repairs to make it more affordable and easier. Please approach us for more details.
