Sir,

On February 11, 2016 I, Deputy Finch, Justin DSN #313 was contacted by Central Dispatch at approximately 0117 hours to respond to [REDACTED], [REDACTED] in [REDACTED] for a missing child. I immediately responded to the area of Lake Killarney; I asked Central Dispatch to notify Sheriff Medley DSN #305 of the situation and upon arrival confirmed that the address was not [REDACTED] but [REDACTED]. As I arrived at approximately 0124 hours I made contact with the mother of the child [REDACTED], DOB 02-15-1991, W/F, SSN [REDACTED] who stated that her 3 year old son [REDACTED], DOB 01-24-13, W/M, Blonde hair, Blue eyes, scar on left cheek had walked out of the house and was now missing. As I was talking to [REDACTED] I noticed that there were people walking through the woods on the north and south side of highway 72. I asked if she had a picture of [REDACTED] and she showed one to me, which I took a picture of to show other officers and support personnel that would be arriving to help search. I asked [REDACTED] what [REDACTED] was wearing the last time she had seen him, she stated that he had only green underwear on. I asked how long had [REDACTED] been missing she stated about 25 minutes.

At that time I began my search for [REDACTED] by searching around the outside of the home and making my way to the ditch line of highway 72. [REDACTED] searched beside me as we worked our way west approximately 200 yards and then turned east back toward the lake. As we neared where we had begun our search at the ditch line she stated that she felt as if she were going to get sick and was having trouble breathing. I asked if she needed help, she did not want an ambulance at that time, so I told her she needed to take slow deep breathes. [REDACTED] stated she was going back to the residence and turned to walk up the hill. As she was walking up the hill she turned and stated that she was going to go door to door. I also saw at that time that another patrol vehicle had arrived and heard via radio that Deputy Burkett, Jeff DSN #309 had arrived. I proceeded to search west toward the lake, searching around the residences closest to me as I went. As I approached the lake I noticed someone with a flashlight searching the north shore of the lake so I turned south and searched the east shore of the lake including the boat dock

and all the boats that were docked. I then turned back east and searched the outside perimeter and all the doors to see if they were locked of the out building next to the lake and the lodge at the entrance of the Lake Killarney community. As I came around to the front of the lodge Sheriff Medley DSN #305 pulled up and stated we should make contact with [REDACTED] and see exactly how and when [REDACTED] had gone missing. I got into Sheriff Medley's patrol vehicle and he took me back up to the residence where [REDACTED] was.

Upon contact with [REDACTED] at the residence I asked if she had searched the house thoroughly, she said she had but we would look again if we wanted. At that time myself and Sheriff Medley searched the inside of the house checking all cabinets and closets and anywhere a small child could hide. After we searched I asked [REDACTED] what exactly had lead up to [REDACTED] being missing. [REDACTED] stated she and [REDACTED], DOB 11-20-1992, W/M, SSN [REDACTED] had left somewhere between 1130 and midnight on the 10th of February, 2016 to take a vehicle back to [REDACTED] sister, [REDACTED] who's husband needed the vehicle to get to work the next morning. They had dropped off the vehicle in Ironton and stopped by Casey's in Ironton to grab a soda and a pack of cigarettes. They then proceeded home. When they arrived about 25 minutes after they had left they noticed that [REDACTED] was not on the couch where he was when they had left. [REDACTED] stated that when they left [REDACTED], DOB 11-09-1968, W/M, SSN [REDACTED] was in the northeast bedroom with her one year old daughter sleeping. [REDACTED] DOB 12-08-1990, W/M, SSN [REDACTED] was in the southeast bedroom sleeping and [REDACTED] was on the couch. I noticed that there were some clothes on the couch and in the floor next to the couch so I asked if those were the clothes [REDACTED] was wearing that day. [REDACTED] stated it was and that is how she knew he was only in his underwear. I asked if she knew of anyone that would want to take [REDACTED] [REDACTED] stated [REDACTED] biological father, [REDACTED] lived in South Carolina. They did just have a paternity test but she didn't think he would come to take [REDACTED]

At that time [REDACTED] walked in the front door and I was able to gather his information and ask him what had happened. [REDACTED] stated they had left somewhere between 2300 and 2400 hours and added that when he talked to [REDACTED] [REDACTED] thought [REDACTED] had gone with them to drop off the vehicle. After I was through talking with [REDACTED] the two vehicles outside the residence a VW Passat LIC# MMO J9N and a Mitsubishi Diamante LIC# CJ2 H6C were searched with negative results. This is when I was able to very briefly talk to [REDACTED]. [REDACTED] stated that when he got up after getting the one year old to sleep he noticed that [REDACTED] was not there but just figured he had gone with [REDACTED] and [REDACTED]. Also at that time Highway Patrol Officer Sargent, Russ DSN #433 had arrived and Sheriff Medley told me he had called in DDCC and the FBI. We continued to search until the Highway Patrol brought in special equipment at approximately 0500 hours via helicopter when they wanted the woods to be as clear as possible.

Soon after that is when DDCC and the FBI began to filter in and take over the investigation and the search. We continued to support them in any way we could including continuing to search and interviewing neighbors in the immediate area of Killarney Drive until approximately 1115 hours when the body of [REDACTED] was found.

This case is still open for investigation. All evidence is being turned over to DDCC investigators and all other information will be added in supplemental form.

Lead Assigned: Interview of [REDACTED]

Narrative:

1. On February 10, 2016, the Troop E Division of Drug and Crime Control was requested for assistance in the death investigation of [REDACTED], white male, date of birth January 24, 2013. During the early morning hours of February 10, 2016, [REDACTED] was reported as missing from the address of [REDACTED] in [REDACTED]. He was later located deceased, at [REDACTED].
2. On February 10, 2016, at approximately 0605 hours, Sergeant J. L. Weadon and I, Corporal J. A. Lacey, interviewed [REDACTED]. She is described as a white female, date of birth February 15, 1991. She resides at [REDACTED]. She is [REDACTED] mother. The interview was conducted in my patrol vehicle, and was audio recorded. A copy of the recording will be attached with this report.
3. We first observed [REDACTED] in front of the residence, where the child was missing. We had been instructed earlier in the morning that she was distraught over the child being missing, and had to go to the hospital, due to fainting. She had to be assisted to the front seat of my patrol vehicle, due to being very lethargic.
4. We attempted to ask her several questions about the disappearance of her son. She was very difficult to understand, and had trouble staying awake. She had obvious blood stains on the right leg of her jeans.

She indicated this was due to going to the hospital. She showed us on her right arm where she was given a shot. She had a band aid covering the wound.

5. I asked [REDACTED] to explain her timeline the evening before. She indicated she and [REDACTED] took his sister's vehicle to her house, so her husband could go to work the next morning. Before leaving, she noticed [REDACTED] was half asleep on the couch. Prior to being with [REDACTED] she was at her residence in Potosi. [REDACTED] came and picked her and [REDACTED] up and drove them to [REDACTED] father's house around 2030 or 2100 hours. She indicated [REDACTED] dad, [REDACTED], was in the back room putting her daughter to sleep. Another male at the residence, [REDACTED], was in another room sleeping. During the interview, she started falling asleep. I had to ask her several times to wake up and talk to me. She was very difficult to understand, due to her speech being so slurred.

6. It was decided to stop the interview at that point. She was later interviewed by another investigator. This is a brief synopsis of the interview. For full details, see the attached recording.

Narrative:

On February 10th, 2016 at 6:35am the FCC K-9 Unit was called-out to assist Missouri State Highway Patrol (MSHP) in the search for 3 year old [REDACTED] who was reported missing at 1:00am this morning in the area near Lake Killarney on Hwy. 72 in Iron County. [REDACTED] had blonde hair, blue eyes, and was last seen wearing a diaper or green and white underwear, and no other clothing on.

Team members present were: COI John Matthews, COI Lindell Moore, COI Justin Allgier, COI Robert Todd, and COI Kody Martin. We loaded K-9's Pam and Tila in the trailer, obtained (5) Glock pistols, (1) 12 gauge shotgun, (2) Ar-15's and ammunition from the armory, loaded them in the van and departed the institution at 7:30am. While en route Officer Allgier contacted MSHP Cpl. Sargent to obtain more information and give our estimated time of arrival.

We arrived at the command post at Lake Killarney at 7:59am and met with MSHP Cpl. Sargent and Iron County Sheriff Roger Medley. We moved up to the residence on [REDACTED] at 8:17am. Officer Martin and Todd obtained the following scent articles from the FBI who had already bagged some items up. Officer Todd wearing latex gloves placed the following items in separate zip loc bags, (1) pillow case, (1) pair of baby socks, (1) pants, and (1) shirt.

Officer Allgier scented canine Tila on the baby socks at 8:27am just east of the residence. Officers Martin, Todd, Missouri State Park Ranger (MSPR) Andrew McClanahan (badge R-20), and Iron County Sheriff Deputy Laci Elkins (badge 307) went in support.

Canine Tila was led to the edge of what appeared to be the residence's yard and began to circle the house in a counterclockwise direction. When we came back to Killarney Drive in front of the residence she showed more interest to the southwest, we then went to the rear of the houses on that side of the street. She then turned and worked to the south crossing a dry creek and up a hill and crossed Rogers Drive. Approximately 30 yards west of the road, in a house's yard, a diaper was discovered at approximately 8:39 am. It appeared to be aged, but due to it being out of place it was marked and treated as evidence. N37* 35.703 and W090* 33.891 it was left in place.

Canine Tila led us to the east for approximately 50 yards behind another house before exiting back onto Rogers Drive. Turned to the east on Rogers Drive and after approximately 100 yards, she circled another house still continued eastward through the woods. After approximately 50 yards she crossed Carson Street in a southeast direction, back into woods and came upon Ozark Drive. Tila made a 90* turn to south on Ozark Drive. Continued to follow Ozark Drive for approximately .2 mile, the road turned to the right and paralleled the lake heading north/northwest. At approximately 8:57 am Tila made a hard left (N37* 35.535 W090* 33.834) exiting the road heading west, showing a lot of interest working out the hill side and rocky terrain near the lake. Tila continued down hill making several circles and casting until we reached the shore of Lake Killarney. She then led us to the north approximately 200 yards passing some residence's and Canine Tila was taken off track at approximately 9:07 am near Linda Drive and Ozark Drive to regroup. (N37* 35.583 W090* 33.945) Canine Tila's total distance was 1.5 miles.

At approximately 9:21 am while regrouping at the command post, a MSHP patrolman was sent to go with us to the location of the diaper, so he could photograph and collect the potential evidence.

Canine Pam was scented by Matthews at the residence using the pair of pants at approximately 9:54 am Officers Moore, Martin, MSPR McClanahan and Deputy Elkins went in support. Pam started west of the residence working clockwise west to north around the home continuing east back to Killarney Drive. Pam then turned west down Killarney Drive for approximately 30 yards then made a 90* turn to the left heading south/southeast into the woods working through a drainage ditch then up a hill to Roger Drive. Pam made a 90* turn to the left heading east up Rogers drive up to Carson Street. This is same direction that canine Tila had previously worked earlier. Canine Pam was loaded into the trailer and we moved to Ozark Drive where canine Tila made a hard 90* turn left off of the road into the woods towards Lake Killarney.

Matthews got canine Pam out of the trailer and put her back on track at approximately 10:14 am , she worked left to right along wood line on Ozark Drive from a privacy fence to an electric pole. She then made a 90* turn to the left into the woods working west/southwest down the hill to a walking trail paralleling the lake. She checked right at this trail then made 180* turn working left paralleling the lake down to the dam south/southeast on the trail. Total distance at this point was 1.2 miles.

Pam worked across the dam continuing southeast/east paralleling Stouts Creek on the north side. The further she worked down trail, the trail began widening out to a gravel road. She continued on the road working east/northeast coming to Day Spring Bible Camp. Pam worked to the far east end of the camp showing great interest in the road, with several what appeared to be empty cabins in this area. After .3 mile down the road she was taken off track at 10:53 am. We stopped here to regroup and decided to return to command post to get assistance to conduct a grid search/building clearing of the Day Spring Bible Camp grounds.

When we arrived to the intersection of Hwy 72 and Collins Lane at 11:00 am We were approached by a male and a female subject. They informed us that there was a baby in a parked car/van in their driveway next to their house. Iron County Deputy Laci Elkins and officer Todd checked the van and found a small white male child inside face down between the front seats only wearing his green underwear. They checked the child for any signs of life and there was none. It was determined that this was 3 year old [REDACTED] [REDACTED] we was searching for. The female subject retrieved a blanket from the residence, [REDACTED] was

covered with a blanket until paramedics and investigators arrived on scene.

The van, a Dodge Caravan, was located at these coordinates N37° 35.916 W090° 33.457. Upon further inspection it was in fact the boy we were looking for. All of these distances are from GPS coordinates we took our selves and may not be the same as the investigators for the highway patrol.

We was debriefed at 12:30pm and stood down at 12:45pm by MSHP Cpl. Sargent. We departed Lake Killarney at 12:55pm. We arrived at the institution at approximately 1:25pm, returned weapons and ammunition to the armory. We met the Peer Action Team (PACT) members COIII Jason Horn, COI Julie Yoder, and COI Sarah Roney in the administration building at 1:30pm. After this meeting we met with Warden Villmer Assistant Warden Mike Gann, and Major Gober in Villmers office. We fed and watered the dogs, fueled the van up, and the team departed the facility at 5:00pm. There were no injuries to report at this time by any team members.

[REDACTED], white female, date of birth (DOB) MAY 30, 1956, Social Security Number [REDACTED], home telephone [REDACTED], was interviewed at her residence located at [REDACTED]. Also partially present during the interview was [REDACTED] husband, [REDACTED] white male. SA MICHAEL MARUSCHAK, FBI Rolla, and DETECTIVE GREG HITCHINGS, IRON COUNTY SHERIFFS OFFICE, identified themselves by a show of credentials and explained the nature of the interview. [REDACTED] provided the following information:

At approximately 1:15 a.m., [REDACTED] woke up in middle of the night by the sound of [REDACTED] screaming in her back yard. When [REDACTED] went to check on the disturbance, she noticed [REDACTED], [REDACTED], and [REDACTED] (phonetic spelling), were all outside looking for [REDACTED]. [REDACTED] observed a black car and a tan car near the residence, which were somehow related to [REDACTED] or individuals living in their house. [REDACTED] proceeded down the road and when she returned to [REDACTED] residence, she stated it was time to call the police. [REDACTED] used [REDACTED] phone to call the police.

██████████ recalled before ██████████ called the police, ██████████ talked to ██████████, who was in his car across the street. ACCORDING to ██████████, ██████████ was a former construction worker from East St. Louis, Illinois, and had a nursing license. ██████████ worked at a local nursery home. Both ██████████ and ██████████ described ██████████ as often getting drunk and high, and labeled ██████████ as an "odd character."

██████████, ██████████ boyfriend, asked ██████████ if she had a flash light he could use for the search. ██████████ was not acting hysterical, and according to ██████████ did not seem as concerned as ██████████. ██████████ is very close to ██████████ and ██████████ often observes them playing together. ██████████ told ██████████ he had looked everywhere and could not find ██████████. ██████████ was unsure if ██████████ was wearing a shirt when she last saw him.

██████████ joined the search and proceeded to the boat docks where she observed a black vehicle similar to the car at ██████████ house, at the beach area near the boat dock. The lights were not on in the car and the individual was not calling out ██████████ name.

██████████ agreed to a complete search of her residence.

Lead Assigned: Locate the Body of [REDACTED]

Narrative:

1. On Wednesday, February 10, 2016, I, Sergeant J. L. Weadon, was assigned lead number 19 in the [REDACTED] death investigation. Lead 19 was to secure the area of [REDACTED] 63650. [REDACTED] had been located by [REDACTED] in her green Dodge Caravan.

2. I was at the Lake Killarney command post when several searchers started requesting the Sheriff. Several officers at the command post started trying to locate the sheriff. I left the command post and drove to Collins Lane; this is the area the searchers were requesting the assistance of the Sheriff. At the intersection of Collins Lane and Missouri 72, several officers were gathered. When I arrived on scene I made contact with the officers. The officers on scene told me [REDACTED] had been located inside a van beside the residence. The van was later determined to be a green, 2004 Dodge Caravan, Missouri registration DD5 C1C, vehicle identification number 2D4GP44L05R183681. I went to the van where several people were gathered around it. Both sliding doors on the van were open and a member of the Missouri Department of Corrections was manipulating a blanket with his bare hand that was on [REDACTED] (I later learned the blanket had been placed on [REDACTED] after he was located.) I asked if someone had checked [REDACTED] vitals and an emergency responder told me she had and he was dead.

3. I had everyone leave the area and go back to the road. I took overall photographs of the scene, I also took close-up photographs of [REDACTED] inside the caravan. [REDACTED] was positioned between the front seats. He was lying on his stomach. His feet were towards the front of the vehicle and his head was towards the

rear. [REDACTED] was then taken from the vehicle by the Coroner's staff and transported from the scene. The caravan and a Ford Escape were secured with evidence tape and towed from the scene by Adams Custom Auto. The vehicles were placed inside at Adams Custom Auto and were later processed for evidence.

4. The occupants of the residence at [REDACTED] are [REDACTED], date of birth July 31, 1971. He is identified as a white male. [REDACTED] longtime girlfriend, [REDACTED], also lives at the residence. She is identified as a white female, her date of birth is September 21, 1981. [REDACTED] and [REDACTED] were transported from the scene by an Iron County Deputy to the Iron County Sheriff's office where they were later interviewed.

5. A copy of the photographs are attached to this report.

Lead Assigned: Interview of [REDACTED]

Narrative:

1. On Wednesday, February 10, 2016 at approximately 1330 hours, I, Sergeant J. S. Stoelting interviewed [REDACTED] of [REDACTED]. Her date of birth is September 28, 1981 and her cellular phone number is [REDACTED]. The interview took place at the Iron County Sheriff's Office and was in reference to the death of [REDACTED]. [REDACTED] body was found inside of [REDACTED] van, which was parked at her house. The interview was audio recorded and a copy will be made part of this case file.
2. I made contact with [REDACTED] and asked her to tell me what she knew about [REDACTED] body being found in her van. [REDACTED] explained to me she got home from work last night between 7:45 and 8:00 P. M. Her boyfriend, [REDACTED] had already fed the kids so she fixed her a baked potato for supper. [REDACTED] said she sat on the couch for a few minutes; put on her pajamas and went to bed about 8:30. [REDACTED] said her 5 year old went to bed with her while her 12 year old and [REDACTED] played a game on his tablet. [REDACTED] said no one else was there last night and no one else came by.
3. She went on to say she got up during the night to use the restroom. She heard the dogs barking but didn't look outside because it wasn't unusual for the dogs to bark. [REDACTED] didn't know what time this was. When asked, she said [REDACTED] was in bed at this time although she didn't know when he came to bed. [REDACTED] said she went back to bed and got up at 6:48 A. M. got the kids ready and took them to school about 7:30. [REDACTED] said she and [REDACTED] went to eat breakfast in town when [REDACTED] got a text

message about the missing boy. I asked her who text [REDACTED] and she said it was [REDACTED].

4. [REDACTED] said they drove back to their house and [REDACTED] pulled over and talked to a guy on a four (4) wheeler. [REDACTED] talked to the guy outside of the van and she didn't know what they said. [REDACTED] said they went home and after they pulled in she was going to walk to the back yard to see if the boy may have been by the dog pen. [REDACTED] said as she walked passed her van she looked inside and noticed the boy's feet. [REDACTED] opened the sliding door on driver's side and noticed he was facing towards the rear of the van. [REDACTED] said she was going to feel for a pulse and noticed he was cold. [REDACTED] said she yelled for [REDACTED] to go get the police and waited for the police to show up. [REDACTED] said she noticed a van with policeman inside and waved for them.
5. [REDACTED] said the police then came over and she asked one of them if she could get a blanket and cover him up and they said yes. [REDACTED] went inside and got a blanket and a police officer placed the blanket over the child. [REDACTED] said at this time she just stood off to the side. When asked, [REDACTED] said she noticed scratches on his forearms and a red spot on his head. [REDACTED] also told me she hasn't driven the van in a month. She got inside the van about a week ago just to start it. For exact details see the audio recording.

Narrative:

1. On February 10, 2016 FBI Agent Brian Ritter and I searched the residence located at [REDACTED]. The residence is owned by [REDACTED] date of birth November 9, 1968. [REDACTED] is the grandfather of the victim [REDACTED] who is three years old. Consent to search the residence was granted by [REDACTED]. The residence was being secured by Iron County Deputy Maxey when we arrived.

2. During the search of the residence there were no indications of foul play. There were no signs of forced entry into the residence. The residence was clean. Agent Ritter told me that several people had been inside the residence prior to my arrival, searching for the victim ([REDACTED]). I photographed the residence prior to the search. We were advised that the victim ([REDACTED]) had been sleeping on the couch in the living room prior to him turning up missing. A child's coat was located on the couch along with a pillow and a comforter. A search of [REDACTED] room revealed two bags of children's clothes and a soiled towel that was located on the floor. There was a bed a pallet and some children's toys in the room. The

bathrooms and other rooms in the residence were searched and nothing of evidentiary value was located. The utility room that was attached to the kitchen was blocked off to prevent a family dog from leaving the room. In the utility room a washer and dryer were located and searched. Wet clothes of all sizes were located in the washer. Clothes were found in the dryer also. The kitchen and the trashcans were searched. A close look at the floors in the residence showed no signs of a traumatic event occurring. We then searched the outside of the residence, nothing of evidentiary value was located.

[REDACTED] asked how long the baby had been missing, and [REDACTED] replied fifteen minutes. [REDACTED] asked if they had called the police, and someone replied they had not. [REDACTED] told them to call the police.

During this time, [REDACTED] was in range to hear the conversation, and entered his silver Mitsubishi and drove to the highway, towards town. [REDACTED] returned approximately twenty to thirty minutes later. Approximately one hour after the baby was discovered missing, [REDACTED] started yelling about the baby being gone. [REDACTED] searched with a flashlight for the baby around his residence and the surrounding area and lake, but did not locate anything. [REDACTED] searched his yard, in part, due to the fact [REDACTED] was standing there. [REDACTED] searched until 0500 hours, but took breaks and came inside to warm up.
