3. Competitors can voluntarily enter a kitty at most club competitions. Species are nominated in the annual fi shing programme and the kitty is awarded to the member with the heaviest specimen in the nominated category. In the event of none of the nominated species being caught then the entrants with the heaviest total weights shall share the kitty. Should nothing be weighed in, the kitty will be carried forward to the next competition of the same nature, i.e. from one Herm shore to the next Herm shore. The kitty where possible is to be shared by two participants at each competition.
4. Artificial lures count as one hook and can therefore be used on both boat and shore competitions.
5. Three rods with a maximum combined total of four hooks are permitted for club shore competitions. Pennell rigs will be classed as fishing 1 (one) hook.
6. For safety reasons members fi shing in Herm during the hours of darkness are expected to fish in pairs. It is recognised by the committee that it is unsportsmanlike conduct to set up fishing gear at fishing marks prior to weighing in for the start of any competition. It is accepted that there may be occasions when competitors cannot be at the start place of a competition. In this event members are expected to register their intent to fish with the secretary or committee member and indicate then if they wish to take part in the kitty.
