## Gusto 6 L

The new Gusto 6 L is all about efficiency and capacity; a whopping 326 mixed confectionery and cold drinks from this combination version. The Gusto 6 L has made great strides with thermal efficiency. Using foam insulation and an internal structure made of PVC combined with a new cooling unit with R290 technology for low environmental impact and high energy saving, the Gusto 6 L is 30% more efficient than any previous versions of Evoca snacks or combination snacks and cold drinks machines. Evoca's optional remote telemetry package, giving you the ability to change the digital prices remotely and have access to sales data. Refrigeration is provided by a high efficiency three temperature zone cooling unit, offering a low energy consumption, at 1125 kWh/per annum. With extensive insulation of the cabinet, L.E.D. lighting and an advanced energy management the Gusto 6 L has class leading energy rating of C, good for your wallet and the environment. All of these features will help to increase sales, enhance user experience and simplify operating tasks.

- Simple touch keypad buttons and clear graphic screen makes the Gusto 6 Classic M is easy to use.
- The latest operating platform allows payment by contactless card or mobile phone
- Change prices and monitor performance using optional remote telemetry technology
