Dual cup dispense.

Gaggia Kalea G500

Designed to adapt, the new Gaggia Kalea G 500 offers exceptional flexibility.

Choose between 7" or 10" touchscreen displays for an intuitive user experience and select your preferred milk system, either Prime Milk or the superior Latte Velluto model for barista-quality dense foam and automatic milk cleaning. The Latte Velluto offers even greater flexibility with a dual milk system using separated milk compartments in optional six or fourteen litre capacity fridges. With dual bean hoppers, standard and decaffeinated coffee can be served. When specified with the dual milk option, it is possible to offer plant-based and lactose-free milk-based speciality drinks. A useful option is the Powersteam HT (a temperature-controlled steam wand, insulated and with anti-sticking material, providing automatic milk heating and foaming). The G500 Kalea is customisable with layouts to deliver tailored menu solutions for hotels, restaurants, or self-serve for canteens and offices that demand performance and style.

- Can keep consistent demand for up to 250 drinks per day.
- Easy to use touch screen with programmable menu.
- Drinks menu may include Cappuccino, Espresso, Americano, Cafe Latte, Cafe Au Lait, Chocolate, Cafe Mocha, Hot Water,
- "Latte Velluto" option with enhanced milk foam technology gives perfect foamy cappuccinos and latte.
