Palma H70

The Palma H70 snacks vending machine is one of those useful pieces of equipment that you can place almost anywhere due to a small footprint, at just over twenty-eight inches wide the Palma will fit through the tightest of door spaces. With adjustable shelves and flexible spiral configurations this all-snacks version delivers a versatile high-capacity, vending solution for crisps, confectionery, protein bars, bakery items and grab-and-go snacks. With such flexibility the Palma offers a retail solution for many product types, and not just snacks.

To make sure the Palma H70 is friendly to the environment it uses an energy management system that can lower power consumption during quiet usage periods. End of life recycling is an important environmental consideration and the Palma H70 has an impressive 60 percent of its components being recyclable at the end of its life. With power consumption of just 1947 kWh per annum the Palma H70 scored as Class F in the new IECEN 63252 energy compliance rating. If you are looking for high-capacity vending solution fit for any workplace, hospital, college, leisure centre, or logistics hub, the Palma H70 is well worth considering.
