Refresh SCN36 Combination Snacks & Cold Drinks

The latest offering from North West Vending is the Refresh SCB36, it builds upon a tried and tested legacy of robust and compact snacks and cold drinks vending machines.
The SCB36 is brightly lit using low energy L.E.D. lights ensuring all products are superbly presented and highly visible to customers. The SCB36 offers a fantastic selection of snacks, confectionery, cans and bottles. Alternatively snack only or can and bottle models are available.

The SCB36 feature an operating platform with a more advanced implementation of the MDB protocol, this assures greater integration with modern cashless systems allowing customers to purchase items using cash, notes, contactless debit or credit cards and even their mobile phones.

To ensure client satisfaction, the SCB36 has a sensor in the delivery area which detects if a product has been vended. If there is no vend the customers can choose another product or a refund.

The SCB36 range is very efficient, with a sophisticated energy management system electricity costs are low. Whatever your needs are; snacks, cold drinks or any combination, the SCB36 can delivery it all with ease.

- MDB compatible payment system accepts everything in the customer's wallet, coins, and as an option, notes, debit & credit cards, keys and even mobile phone payments
- Product vend detection guarantees the customer receives their selected product or their money back
