History

Shenye was the name of the only remaining village that wasn't destroyed by the Iraqi forces in Kurdistan. This company was established in **(1998)** and was named Kani Company at first but in 2003 the company's name was changed to Shenye Company according to that village.

Shenye's first tasks were providing multi-stories building construction, consulting services in engineering, project management and development activities.

The company is led by a team, which has more than of **15 years** of practical and theoretical experience in construction and trading. We have our seen role in the region through our works that has led to big success in a short time.

Our company is aiming to go toward internationality through opening branches in Germany, Emirates, and Jordan also appointing representatives in (Austria, United Kingdom, China, and Egypt along with the cities in Iraq).

Year of the Company's establishment

First Shenye Company had another name which was Kani company and it was established in 1998, but in 2003 we changed the name of the company to Shenye company for General trading, construction and supplying.

Company Budget is **750000000 IQD**

Our Company had significant involvements with projects which had a high dollar value
(as explained in the list of our work activities)

Our company's grade is first grade according to the Sulaymaniyah contractor's union and Sulaymaniyah chamber of commerce, and the number of contractor Union ID 364.

1998

2003

2007

2016

2018

Since our establishment in 1998 with the name of “Kani Company” with a company capital of 750,000,000.00 seven hundred and fifty million IQD, the company expanded and combined into 10 companies and then the name has changed to Shenye Group in 2003.

Shenye Group has achieved and maintained its leading strategic position within Iraqi market. Its main headquarter is located in Sulaymaniyah governorate in Iraq, and have several branches in all over Iraq, including Baghdad, Erbil, Dohuk, Kirkuk, etc...

Shenye Group has expanded rapidly during the past few years, both organically and physically. we are able to provide a wide spectrum of services and products with the highest quality of excellence, all over the country through our ten companies. Our Group is aiming to open branches in Egypt, Germany, Emirates, Jordan, Austria, United Kingdom, and China.

Shenye Group started forming parts for his groups, when they decided to have all kind of parts of business such as establishing medicine part, food part, security part, service part, travelling part, contraction part, transportation part, communication, petroleum and energy investment part, investment part, insurance part, and agriculture part. After a process of discussion and thinking, Shenye Group started to open their parts step by step. The first part that Shenye Group has started with was construction and general trading, so they decided to open a company under the name of Shenye Group and named it Shenye Company. It was a good time to start a business regarding that matter, so they started with this section of construction and trading, you will see the projects that they have after. After this section, Shenye Group deiced to open another part that was security, so under the name of Shenye Group another company named Nan Company for security systems and services was opened in 2007, It was a new company and a modern idea for Iraq and Kurdistan over all, because no one knew a lot about security companies and security systems. Nan Company continued working until 2016, then Shenye Group decided to change the name from Nan Company to Zinana Company, because Zinana is a name of a village that was like Shenye village and was the only remaining village in the area that wasn't destroyed by the Iraqi forces in Kurdistan.

1998

2003

2007

2016

2018

After this section Shenye Group decided to create another part which was a medical company, so under the name of Shenye Group Redpoint Company for medical services, health care and medicine was established. It was a good section in business over all that's why Shenye Group decided to open this section and work in it.

After this section, Shenye group decided to create another part which was oil, petroleum, and energy, so they decided that under the name of Shenye Group to open the company with the name of Zaw' Al Iraq Company which means "light of Iraq". It was a very well going business in Iraq and in the area because Iraq has a lot of oil.

After this section, Shenye Group decided to open another part which was providing preparations for government and private companies. This part contained providing clothes, materials and tools that government needed as well as providing vehicles, trucks, spare parts and equipment.

Shenye Group's unique corporate culture is embodied in our purpose and core values. One of our core values is recognizing the importance of our employees' value. Because our team is our greatest assets.

All members of our teams are given the opportunity to excel in their responsibilities. And decision-making is pushed down to the lowest level possible and everyone is empowered to meet the needs of our customers. Safety is a core value, not just a priority at Shenye Group and through our people-based safety program we are taking safety to another level. As well capacity building trainings are critical to efficient productive performance of our staff and is encompassed in our core values. Our operations have allowed Shenye Group to maintain a small- company alongside family atmosphere with close ties to our teams, and the ability to move quickly to meet clients' needs. Shenye Group financial strengths, resources and presence throughout Iraq enable us to maintain an effective performance, small capital, and have large and complex projects.
