

Microterrazzo crystal collection
AFRICA+CT

With Cemher Microterrazzo we have revolutionized a symbol of elegance - the classic Venetian terrazzo. Thanks to our research and product development we brought a touch of modernity for a natural and elegant finish.

Cemher Microterrazzo only needs 5-6 mm thickness, which simplifies its use and application time to create a unique continuous finish. Microterrazzo is composed of Cemher microcement and exclusive crystals of different colors to create all the combinations you can imagine.

Con Microterrazzo Cemher hemos revolucionado el clásico terrazzo veneciano, un símbolo de la elegancia, al que gracias a nuestra investigación y desarrollo de productos, le hemos conseguido dar un toque de modernidad para un acabado natural y elegante.

Microterrazzo Cemher solo necesita de 5-6 milímetros de grosor, lo que simplifica su proceso y tiempo de aplicación, para crear un acabado continuo único. Microterrazzo se compone de microcemento Cemher y exclusivos cristales de diferentes colores, para crear todas las combinaciones que puedas imaginar.
