CTG Power Systems Intl., LLC is a premier global supplier specializing in new, unused, and reconditioned transformers, dedicated to enhancing critical infrastructure across grid systems, data centers, utility failure replacements, and renewable energy projects. Our comprehensive range includes step-up, step-down, pad mount, substation transformers circuit breaker and switchgear. All equipment is offered certified with either domestic or offshore quality standards to ensure superior performance and reliability.

Our Mission:

Our mission is to support and advance power infrastructure by providing top-tier transformers that meet both domestic and international standards. We aim to deliver solutions that fortify grid resilience, optimize data center operations, provide reliable replacements for utility failures, and enhance renewable energy systems, all while guaranteeing product excellence through rigorous certification and comprehensive warranties.

CTG Power Systems Intl, LLC (CTG) is the seller of this equipment and will facilitate all aspects of the equipment transaction. CTG's Terms and Conditions governing surplus equipment whether new or reconditioned will apply. Additional services such as shipping and insurance, engineering installation and commissioning are available through CTG or others (according to buyer preference) and will be performed under a separate contract, if requested.

A non-revocable purchase order accompanied by verification of the availability of funds is required. Buyer will be required to render a non-refundable deposit of up to a 50% of the total purchase price with balance due 50% no later than ten (10) days prior to load out or notice of readiness to ship , whichever event occurs earlier.
