Campaign Aims

✔ WHAT

✔ Prime focus on patient safety and concerns, campaign for a fair and truly independent complaints process, overseen by a fair and unbiased group; seeking the truth and accountability rather than protecting reputations.

✔ Whistleblowers to have dedicated hotline and off-site meeting location, away from the potential backlash of senior management.

✔ Dedicated department for NHS whistleblowers.

✔ HOW

✔ Independent Investigations that the Trust can't influence. No conscious or sub-conscious bias to colleagues or their Trust.

✔ Specially trained and qualified medical investigators – not medical staff seconded in from another department; taken away from their day jobs and reducing staffing levels.

✔ No investigations into known colleagues, who may investigate you one day.

✔ WHY

✔ Trusts can't hide, ignore or bury problems or dismiss concerns from patients or staff.

✔ Lessons will be learnt and used for improvement.

✔ All recommendations made can be audited to ensure implementation.
