PRONK

Your technical partner

ENGLISH

Industrial maintenance

Servicing and repairs for industrial equipment, on site or in the workshop, with direct communication and a considered diagnosis.

Maintain your machines. Keep your business moving.

Based in Segré-en-Anjou Bleu. Service throughout France; work elsewhere in Europe and internationally assessed according to the assignment.

Practical support for your machinery

Prevent breakdowns

Preventive servicing adapted to machine condition, use and production requirements.

Diagnose and repair

Mechanical, hydraulic, pneumatic and electrical work.

Work on site

Diagnosis, servicing and repairs at your premises or in the workshop.

Test and follow up

Functional testing after intervention and ongoing technical support.

Independent Machine Condition and Safety Inspection

Assessment of machine condition and operation, identification of defects and recommendations for work. Any required statutory inspections remain separate.

Let’s talk about your machine.
