

WEATHER POLICY

Wet or even damp courts can be slippery and the cause of significant bodily injury.

If courts are wet or damp, the Club and/or the Court Coordinators may cancel all or any part of a session.

When courts are wet or damp, each player is responsible for, at all times, making his or her own decision as to whether it is safe to play (regardless of whether the session has been cancelled).

If players play when courts are wet or damp, play in those conditions (regardless of whether the session has been cancelled) is not sanctioned by the Club.
