

Diesel starter plate

These plates are, as always, made of 7075 aluminum, for aeronautical use, and the central hole is off-center, so that the engine is perfectly adjusted to the flywheel.

And that's how it would be once done

The reference is **BOSCH – 02A911023R**, but you can find an equivalence with other brands since it is a widely used model. I'll give you some examples of vehicles that use it:

AUDI A3 1.9 TDI 09/1996 – SEAT Arosa 1.4 TDI 10/1999 – SEAT Cordoba 1.9 SDI,TDI 05/1999 – SEAT Ibiza 1.9 TDI 03/1993 -01/2002 – SEAT Leon 1.9 TD,TDI 11/1999 – SEAT Toledo 1.9 TD,TDI 10/1998 – SEAT Toledo 1.9 TDI 04/1995 -10/1998 – SKODA Octavia 1.9 TDI 05/1997...
