

TEST CERTIFICATE

Client: Plascoat Systems Limited
Dr Shoaib Qureshi
Farnham Trading Estate
GU9 9NY Farnham (Surrey)
UNITED KINGDOM

Substrate: grid blasted steel

Coating Material: Plascoat PPA 571 (applied as a single layer)

Test Specification: **ISO 12944-6** Paints and varnishes – Corrosion protection of steel structures by protective paint systems – Part 6: Laboratory performance test (corrosivity category: C5-M „high“)

Test Methods: determination of resistance to humidity according to ISO 6270-1 (720 h continuous condensation), determination of resistance to salt spray according to ISO 9227 (1.440 h neutral salt spray), pull-off test for adhesion according to ISO 4624

Test Results: see Test Report No 170673

The tested coating fulfils the requirements of corrosivity category C5-M „high“ according to ISO 12944-6.
