

Workplace Safety:

SM3.2.4 Tipping Site Inspection Checklist.

- ☐ Report to the site manager for instructions as directed
- ☐ Is the area clear from personnel/other vehicles – observing exclusion zone?
- ☐ Is the ground level and stable, free from potholes, compacted with no side slopes?
- ☐ Are wheel chocks necessary? Appropriately sized?
- ☐ Are tailgates secured open before tipping?
- ☐ Is the load evenly distributed across the vehicle?
- ☐ Is the vehicle braked/stabalised as is appropriate?
- ☐ Do you know what to do if the load sticks whilst tipping?
- ☐ Remember to watch the trailer in your mirrors as it is lifted/lowered to ensure alignment over the hoist.
- ☐ Are you aware of prohibited actions around moving off with the bin still in the air?
