## **Introducing Yarona Instrument:**

### **A New Path to Local Economic Empowerment**

**Are you looking for a way to support your local community, foster self-reliance, and prioritize digital privacy?**

**Yarona** is a groundbreaking financial and communication platform built right here in South Africa that offers a unique solution.

**Yarona operates as a closed-loop ecosystem** where users trade value using accumulative credit earned by providing goods and services. This innovative system moves away from traditional currency, promoting a barter-inspired economy with the benefits of digital technology.

### **Key Highlights of Yarona:**

- \* **Credit-Based System:** Earn credit by offering your skills or products and use that credit to access what others provide.
- \* **Local Focus:** By not relying on fiat currency, Yarona aims to insulate users from global financial fluctuations and strengthen the local economy.
- \* **Resource-Backed** (Indirectly): The value within the Yarona system is underpinned by South African mineral resources like Silver, gold, and others.

\* **Secure & Private:** Features like facial authentication, PIN protection, encrypted messaging, voice, and video calls ensure a safe and private user experience.

\* **Fair & Transparent:** An accumulative credit ledger tracks all transactions, and AI moderation helps identify fair trade and prevent abuse.

Yarona is currently in development, with key features like user authentication, the credit ledger, secure communication, and AI-powered analytics already taking shape. Future plans include wider mobile deployment and exploring advanced ledger technologies.

**Yarona is more than just a platform; it's a movement towards a more self-sufficient, community-driven, and digitally secure way of exchanging value. Stay tuned for updates on Yarona's progress and how you can become a part of this exciting initiative!**

#### 4. The second Cartel Branch.

**There will be a Cartel Gentleman Business Club branch, opening soon in the North of Johannesburg.**

The details are to be discussed.

## **5. Meeting Frequency.**

The Cartel Gentlemans Business Club is to host meetings on a by monthly basis (second week and the last week), due to poor attendance in the past weeks, however this is not finalised as the decision still has to be made.

**This will allow the movement to give reports on:**

- The previous meetings.
- The different clusters to report to the members.
- Facts and analysis on opportunities that were presented.
