SMART CUT Series CNC Flame / Plasma Cutting Machine

FEATURES

1. Dual drive, Gantry type, suitable for Plasma & Oxy Fuel Cutting.
2. Modular design, stable and high precision.
3. Any planar figure cutting.
4. Single or large scale components cutting.
5. Simultaneous cutting the same component by multi-group Lifting body and cutting torch.
6. Standard Nesting Software : Australia Fastcam.
7. Controller : FL-2500B DELL Screen 17.5"

PRODUCT DETAILS

MODEL	EFFECTIVE CUTTING (X*Y)	ACTUAL LENGTH
HDG-3060	2300*4800mm	3000*6000mm
HDG-3560	2800*4800mm	3500*6000mm
HDG-4080	3300*6800mm	4000*8000mm
HDG-50120	4300*10800mm	5000*12000mm

CUT SAMPLE

PARAMETERS

Flame cutting thickness	5mm-300mm
Plasma cutting thickness	According to Plasma source
Maximum running speed	10000 mm / min

**Machine Length & Width
can be Adjust
As per customer
Requirement**

Complete Solution For Cutting & Welding Equipments
